

Radiantor customer counter is the advanced video people counter with binocular depth visual technology. Beautiful design, easy placement, simple connection and free setup. Our people counter can offer over 98% accuracy counting results without doubt, it makes your data analysis on reliable basis. Open SDK and API allow you to integrate any other system.

Features:

- Top accuracy in the world
- Save 70% shipment cost
- Fast plug and Play
- Shockproof design
- Nice temperature control
- 24V POE

Specifications

OS:	Linux
Direction:	IN/OUT Bi-direction
Algorithm:	3D Deep Binocular Visual Technology
Counting:	Distinguish Head/Shoulder/Direction
Chips:	Hi3516D
Resolution:	800TVL
Illumination:	0.001Lux
Lens:	1.8/2.8/3.6/4/6/8mm, depend on installation height
Detection:	High: 1.9-4m, Width:0.7-1.5m
Children:	< 1.0/1.2meter will be ignored
Network:	1pcs RJ-45,
Storage:	ROM(12000pcs)
Power:	24V POE
Temperature:	-40℃ to 70℃
Size/Weight:	150*50*52mm/0.3Kg
